

COLLECTED PAPERS

FOREWORD

6^{ème} JOURNEE D'ACTINIDES

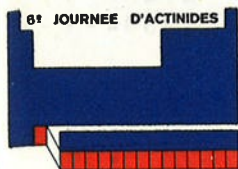

This volume contains the text or abstracts of the contributions presented at the 6^{ème} *Journée d'Actinides*, an informal meeting of scientists, chemists and physicists directly concerned in their research with actinides and their compounds. The preceding meetings in the series were held at Grenoble (1972), Orsay, Karlsruhe (1973), Harwell (1974) and Fontenay-aux-Roses (1975). The text of the following papers has been copied from the original supplied by the authors. It should be considered as private communication, and not be quoted without their permission.

The organisation of the meeting was the work of the Public Relation Service of the *Facultés Universitaires de Namur* and the members of the *Laboratoire de Spectroscopie Electronique*; other sponsors of the meeting were the *Société Chimique de Belgique* and the *s.a. Belgonucléaire*, to whom all we wish to express our gratitude.

FOREWORD

This volume contains the text or abstracts of the contributions presented at the 6^{ème} *Journée d'Actinides*, an informal meeting of solid state physicists, chemists and physical chemists, directly concerned in their research with actinides and their compounds. The preceding meetings in the series were held at Grenoble (1972), Orsay, Karlsruhe (1973), Harwell (1974) and Fontenay-aux-Roses (1975).

The text of the following papers has been copied from the original supplied by the authors. It should be considered as private communication, and not be quoted without their permission.

The organisation of the meeting was the work of the Public Relation Service of the *Facultés Universitaires de Namur* and the members of the *Laboratoire de Spectroscopie Electronique*; other sponsors of the meeting were the *Société Chimique de Belgique* and the *s.a. Belgonucléaire*, to whom all we wish to express our gratitude.

Jacques VERBIST

LIST OF PAPERS

1. Wigner-Seitz Approximation for Heavy Atoms.
M.S.S. BROOKS, J.T. WABER, Karlsruhe (R.F.A.)
2. Lattice Vibrations in the Actinide Metals.
K.A. LONG, Guildford (U.K.)
3. Préparation de l'actinium métallique et diffraction aux RX.
L. COLSON, Liège (Belgique)
4. A Simple Model for Studying the Magnetism of an Actinide Impurity in a Disordered Transition Host.
J.R. IGLESIAS-SICARDI, A.A. GOMES, R. JULLIEN, B. COQBLIN, Orsay (France)
F. DUCASTELLE, Chatillon (France)
5. Low Temperature Specific Heat and Electrical Resistivity of Nearly Ferromagnetic Actinide Systems within a coupled d and f band model.
J.R. IGLESIAS-SICARDI, A.A. GOMES, R. JULLIEN, B. COQBLIN, Orsay (France)
6. Neutron Diffraction Study of Cm and Cm O₂.
A. BLAISE, J.M. FOURNIER, Grenoble (France)
7. Contribution to the Study of Self-Irradiation Effects in Americium Oxides.
C. HURTGEN, J. FUGER, Liège (Belgique)
8. Core Levels Satellites in the X-Ray Photoelectron Spectra of Uranium oxides and Fluorides.
J. J. PIREAUX, J. RIGA, C. TENRET-NOEL, E. THIBAUT, R. CAUDANO, J.J. VERBIST, Namur (Belgique)
9. The Formation of Gradients of U, Pu and O at Surfaces of (U,Pu)O_{2+x} and their Effects on Measurements of Physical Data.
Hj. MATZKE, Karlsruhe (R.F.A.)
10. Recent Experiments on Actinide Compounds with Rocksalt Crystal Structure.
J.L. BOUTARD, C.H. de NOVION, Fontenay-aux-Roses (France)
F.A. WEDGWOOD, Harwell (U.K.)
11. Magnetic Properties of NpAsS, NpAsSe, NpAsTe.
A. BLAISE, P. SALMON, Grenoble (France)
12. Chalcogenures Ternaires de l'Uranium dans les Systèmes UX₂ - MX
(X = S, Se et M = élément 3d).
H. NOEL, Rennes (France)

13. Composés Ternaires de Neptunium et de Plutonium MXY (X = P, As, Sb, Bi
Y = S, Se, Te).
A. WOJAKOWSKI, J.P. CHARVILLAT, D. DAMIEN, Fontenay-aux-Roses (France)
14. Crystal Structure of the Uranyl Perrhenate $UO_2(ReO_4)_2$ by X-Ray diffraction.
J.P. SILVESTRE, Paris (France)
15. Preparation and Properties of some new Organometallic Compounds of Actinides.
J. GOFFART, Liège (Belgique)
16. The Magnetic Susceptibility of Tetrakis (Cyclopentadienyl) Protactinium (IV).
B. KANELLAKOPULOS, H. BILLICH, Karlsruhe (R.F.A.)
W. MULLER, Karlsruhe (R.F.A.)
17. Les Bleus d'Uranium en Solutions Aqueuses.
C. MUSIKAS, A.H. NARTEN, R. HENDRICKS, Tennessee (U.S.A.)
18. Preliminary Optical Spectra of Americium Metal.
J. NAEGELE, Karlsruhe (R.F.A.)
19. S.I. Units in Magnetism.
J. CRANGLE, Sheffield (U.K.)
